About Me

I am an undergraduate software engineering student specializing in full-stack development. Passionate about creating efficient and scalable web applications, I have experience with Next.js, React, Node.js, Express, and other modern technologies. Eager to apply my skills in a dynamic and challenging environment

Technical Skills

- Languages & Frameworks:** JavaScript, TypeScript, HTML/CSS, React, Node.js, Next.js, Java
- Styling & UI:** Tailwind CSS, shadcn, React Hook Forms
- Database:** MongoDB, MySQL
- Tools & Platforms:** WordPress, Auth0, AWS (Lambda, SES, API Gateway, EC2, S3), Docker, Vercel
- Version Control:** Git, GitHub

Soft Skills

- Communication
- Teamwork
- Problem-Solving
- Time Management
- Adaptability
- Leadership
- Creativity

Education

- Bachelor of Information Technology (BIT)**
University Of Colombo School Of Computing 2021-Present
Final Year Student
 - GPA: 3.54
- GCE A/L**
Central College Anuradhapura 2017 - 2019
 - Completed in 2019
 - Stream: Physical Science with ICT

Projects

- Travel Agency App - [Sasanleetravels.com](#)**
Technologies: Next.js, TypeScript, Tailwind, Shadcn, AWS (Lambda, SES, API Gateway)
Deployment: Vercel.com
 - Developed an SEO-optimized web app for a travel agency
 - Implemented a minimal and detailed form for booking, validated using React Hook Form
 - Integrated dynamic email features using AWS (Lambda, SES, API Gateway) to send automatic booking confirmation emails to customers and new booking alerts to the agency admin.
 - Built responsive and visually appealing UI components, ensuring a seamless user experience across different devices.
 - Deployed the web app on Vercel with a custom domain and delivered a scalable solution to the travel agency.
- Food Ordering App - [OrderEats](#)**
Technologies: React, Tailwind CSS, TypeScript, Node.js, MongoDB, shadcn, React Hook Forms, Auth0
Deployment: Render.com
 - Developed a full-stack food ordering application.
 - Implemented user authentication and profile management.
 - Enabled image upload functionality (Cloudinary)
 - Utilized shadcn for styling and React Hook Forms for form management.
 - Integrated Auth0 for secure authentication.
 - Deployed the application on Render.com.
- Baby Clothing Website - [tinykiddies.com](#)**
Technologies: WordPress, WooCommerce
 - Developed an e-commerce website for newborn essentials.
 - Implemented product listings, shopping cart, and checkout functionalities.
 - Integrated secure payment gateways and customer account management.
 - Customized themes and plugins for a seamless user experience.
 - Managed product inventory and order processing.
 - Deployed the website and ensured its responsiveness across devices.
